

Speechi wireless microphone

Réf. : SP-MIC-001

What is the purpose of the Speechi wireless microphone?

This wireless tie microphone allows the speaker to move around during his lecture or presentation (maximum range 15 meters). Very easy to install and use, rechargeable, it connects directly to the computer's microphone jack or to an amplifier.

Description détaillée

Rechargeable microphone transmitter on USB connector

The Speechi mini wireless microphone recharges quickly. In just 2 hours of charging, it is ready to be used between 6 and 8 hours!

Recording or live broadcasting according to your needs

Both uses are possible thanks to the Speechi microphone. Either you broadcast your voice live, or you record it to broadcast it later or superimpose it on a presentation for example.
