

Pack Mini Itsac V2 + eBeam Edge+ USB + Optoma W304M + PC 11,6" fluid

Réf. : MINI-IT-SAC-PACK+-PC-FL-CASIO

The mini IT Sac allows you to get an interactive multimedia room that can be carried anywhere with you. It includes a computer, the eBeam Edge mobile interactive board and a video projector, all in a carrying case to facilitate the movement of equipment. The complete case weighs less than 6kg.

Description détaillée

A mobile interactive projector

No need to equip all rooms with fixed solutions. The interactive cases contain a video projector that is made interactive via the mobile eBeam Edge interactive board.

Get a multimedia room in minutes

the parts of the case are pre-wired to make your life easier. Put the case on the desk, while you open it and plug it in, you're ready. The projector is very easily adjusted with the bulb to (de)inflate the air bag on which it is placed. The [eBeam Edge+](#) is fixed to the panel and calibrated in a few seconds.

An anti-shock case

The materials used in the manufacture of the mini IT Sac are both lightweight and flexible to absorb any shocks.

A fully configurable case

In addition to the basic content, the case can also accommodate some of our other mobile solutions, such as the Speechi Tablet or the Speechi mini wireless microphone, which will perfectly complement your equipment. The basic content of the case is also configurable

Do you already have a computer (max 13") or a projector?

You can very easily configure your case according to your needs.
